LOCAL NEWS.

THE NATIONAL INSTITUTE.

The second meeting of the series took place as published in the programme. The chair was taken by the Hon. LEVI WOODBURY, an honorary member. Papers were read by Rev. H. Hum-PHREYS, of Annapolis, BENJAMIN HALLOWELL, of D. C., Lieut. M. F. MAURY, U. S. Navy, and GEO. Tucker, of the University of Virginia, upon the different subjects entrusted to their charge, which displayed deep learning and scientific research in their authors, and will, we have no doubt, when published, add greatly to these gentlemen's reputation.

The attendance was not so large as on the firet day: but the intellectual entertainment has lost nothing in interest.

The third meeting will take place this evening at 7 o'clock.

THE ETHIOPIAN SERENADERS .- It will be seen by reference to the advertisement, that the original Ethiopian Serenaders, among them the inimitable "Ginger," are again in the city, and will give concerts every night this week at the Apollo Hall. The concerts of this company were so generally attended, and so favorably received, by the ladies and gentlemen of this city upon their former visit, that any commendation of ours is rendered superfluous.

17A meeting of the Clay Club will be held this evening at Concert Hall.

SANDS'S SARSAPARILLA.—In the science of Medi-Sands's Sarsaparilla.—In the science of Medicine, like that of Legislation, it is far more easy to point out what will do harm than what will do good. The human body is much more readily injured and disordered than the body politic, and bad medicines are at least as michievous as unwise laws. A careful study of the pathology of disease, and a thorough knowledge of the peculiar properties and effects of medicinal substances, can alone enable the practitioner to assign, adapt, and proportion the remedy to the disorder. The tonic and alterative qualities of Sarsanarilla, its purifying and restorative influence. Sarsaparilla, its purifying and restorative influence, were, until within a few years, comparatively unknown, merely because there was no preparation of this invaluable root, which contained the quintessence of its sanative properties. It is believed that in SANDS'S SARSAPARILLA this great object has been thoroughly attained; and the attestation of the fact is to be found in the multitude of cures it has effact is to be found in the institute of early it has effected. Cures of Scrofula considered hopeless, Rheuematism, Suppuration of the Glands, King's Evil, Salt Rheum, Liver Disease, Sciatica, and all diseases generated in the elements of the blood are relieved and finally expelled from the system by persevering in the use of this medicine.

For certificates, and numerous testimonials, see pamphlets and various papers.

TWENTY-EIGHTH CONGRESS.

FIRST SESSION.

TUESDAY, APRIL 2, 1844. SENATE.

Mr. TAPPAN presented a protest from citizens of Clarke county, Ohio, against the annexa-tion of Texas. Mr. T. said there was no proposition of this sort before Congress. He moved to lay the memorial on the table.

Mr. UPHAM presented two memorials of similar character from different counties in Vermont.

Mr. HANNEGAN moved the printing of 7,500 extra copies of Captain Crabb's report on the im-

provement of the falls of the Ohio; adopted. Mr. WRIGHT presented a memorial from the Stockbridge Indians, of Wisconsin, who complain that the act of Congress of 1842, by which they were made citizens of the United States, has been highly injurious to them. They ask to be relieved from the same.

Mr. HUNTINGTON, from the Committee on

Commerce, reported a bill making appropriations for the repair of the Charleston post office and

Mr. BAGBY, on leave, introduced a bill authorizing the Solicitor of the Treasury to compromise and settle with the sureties of John H. Owen, late receiver of public moneys at St. Stephen,

Mr. JARNAGIN submitted a resolution calling on the Secretary of War for copies of any powers of attorney of William H. Thomas from the Cherokee Indians—what money was paid to him—when he was appointed agent, &c.

A resolution was adopted calling on the Secretary of War to report upon the practicability and probable expenditure of improving the navigation of the Mississippi river at the point called the chain of rocks.

On motion of Mr. EVANS, the previous order were postponed, and the Senate took up the bills from the House asking appropriations for the Military Academy and fortifications. These bills were reported without amendment. The first was passed, and the latter laid aside, to give Mr. Sevier, of Ark., time to prepare amendments in-cluding appropriations for several forts on the Western frontier, which were entirely left out. A message in writing was received from the

President. Several bills from the House were read twice

POST OFFICE BILL.

Mr. MERRICK answered some objections of Messrs. Phelps and Dayton to the phraseology of this bill. He suggested that to expedite action on the bill, it should first be considered by sections and amendments passed upon before it was dis-

cussed in general.

Mr. SIMMONS said as the Senator from In diana (Mr. Hannegan) wished to discuss the bill, he would withdraw his amendment.

Mr. HANNEGAN then rose, and opposed the bill in a set speech. He traced the operation of the change adopted in the English system, and inferred from the result there that the calculations upon an increased amount of revenue here from a reduction of postage would equally fail. He endeavored to show that this bill would cause a deficit of at least 100 per cent. in the revenues of the Department.

HOUSE OF REPRESENTATIVES.

A bill was introduced by Mr. HUNT, of New York, and referred to the Committee of the Whole, to amend the act-regulating the enlistment and shipping of seamen in public and pri-

The Committee of the Whole were discharged from the consideration of a bill relating to the Drummond light.
Mr. CAVE JOHNSON, of Tenn., offered a

resolution calling upon the Secretary of State to inform the House of the amount of expenditures of the Department, in detail, from the 4th of March, 1841, to the end of the year 1843. The information sought is in reference to the specific sums paid to diplomatic and other agents of Go-

Mr. ADAMS said that this information could be obtained from the House Committee, whose

duty it was to be in possession of it.

Mr. JOHNSON accordingly amended the resolution so as to make the call upon the Committee on the State Department.

The following bills were then read a third time and passed:

A bill giving the assent of Congress to an extra session of the Territorial Legislature of

Also, a bill in reference to the affairs of the Iowa Legislature.

The following was read and referred to the Committee of the Whole:

A bill in relation to the number of representa-

tives in the territorial legislatures.

A bill to enable the people of Iowa to form a State constitution, with a view of being admitted into the Union.

A bill to amend the act providing for the armed

occupation of Florida. A bill providing for a Marine Hospital at Key

West.

A bill to authorize the Legislature of Illinois

to sell the Saline lands in Jackson county.

A bill providing for the commencement of fortifications on the straits of Florida.

The bill authorizing the sale of reserved mi-neral lands in Illinois, Iowa, and Wisconsin, was taken up again, and, after a brief debate, a motion was made to lay it on the table. The yeas and nays were called, and the motion was rejected, ayes 65, noes 82. The bill was then postponed until to-morrow.

The House having, last evening, disposed of all the bills considered in Committee excepting the one just named, again went into Committee of the Whole, Mr. WHITE, of Ky., in the Chair.

With the ex-Speaker in the Chair, the busi ness progressed with great order and celerity.

The bill for the payment of the Iowa militia called into service in 1839, was briefly considered,

and then postponed for the present. The bill to amend the act for the armed oc-

Iowa militia. Some discussion took place; the bill was opposed by Mr. C. Johnson, and advocated by Mesers. Dodge and Dean.

Mr. WELLER moved that the committee rise, and report the bills to the House. Most of the bills considered in committee were then taken up in the House, and finally passed.

The House, for once, were in advance of their business, and nearly despatched, in a day and a half, what had been assigned for three days.

A variety of propositions were made for the disposition of the remainder of the time.

On motion of Mr. JOHNSON, of Tenn., it was

resolved that all debate on the bill to reduce the pay of the army should cease on Thursday, at 2 o'clock.

The House then went into Committee of the Whole, Mr. WELLER in the Chair, and took up the above bill.

The question pending, was whether Mr. Davis, of Ky., should go on, notwithstanding Mr. Hale, of N. H., had called him to order; the committee decided that Mr. D. might proceed but this gentleman thanked the committe, and waived his privilege.

The rest of the day was spent on this bill.

GRAND CONCERT AT APOLLO HALL.

SANDS'S SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALI DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM,

NAMELY:

THE BLOOD, OR HABIT OF THE SYSTEM,

NAMELY:

Scrofula, or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples, or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Sciatica, or Lumbago, and Diseases arising from an injudicious use of Mercury, Ascites, or Dropsy, Exposure or imprudence in life. Also, Chronic Constitutional Disorders will be removed by this preparation.

TO promote the health of the body and increase the tranquillity of the mind, are among the most important objects for which man lives, and for which the sages of antiquity labored with incessant and unremitting toil. The constitution of man was their study, in order to discover the seat of his maladies, and source of all his corporeal misery. To alleviate the drooping spirits, to inspire confidence to the desponding mind, and ease the sorrowed heart, all the arts and arguments of their philosophy and powers of reason were turned. Among the varied branches of worldly learning, there can be none equal in importance to that of the Healing Art, for the soul in a diseased body may be aptly compared to the martyr in his dungeon, which retains its real value, but has lost its usefulness. Many or most diseases have their origin in an impure or impoverished state of the blood, and this being a fluid sui generis, extending to the most minute ramifications of the system, the subtle poison is infused, and the seed being sown brings forth fruit in abundance; in one instance, causing a swelling of the glands, resulting in Scrofula or King's Evil—in another, ossification instance, eausing a swelling of the glands, resulting in Scrofula or King's Evil—in another, ossification of the arteries, or turning them into bone; also, rheu-matism, and disease of the heart, cutaneous erup-tions, diseases of the liver, and a variety of other maladies, which soon hurry their victim to the grave. Sands's Sarsaparilla, a purely vegetable medicine, which is the result of years of labor and chemical research, in bringing it to its present state of perfection, will arrest, and, if timely administered, perfectly cure these diseases, by purifying the vital fluid, regenerating the constitution, dispelling diseased action, giving tone to the general energies of the system, and enabling the blood to course on freely, and bringing with it health and renewed vigor.

The following are extracts from letters recently received, and specimens of those coming to hand daily: maladies, which soon hurry their victim to the grave.

GALLATIN, Tenn., Feb. 27, 1844. Messrs. A. B. & D. Sands-

Gentlemen: I have just received a letter from my father in Russellville, Ky., who wishes to purchase some of your Sarsaparilla. I have no doubt he can be the means of selling a great deal, as it has performed a wonderful cure in his family. Last December I was sent for to see my sister before she died, she having been in poor health for some two or three years, and at the time I went over to see her, she was at the point of death with the scarlet fever she was at the point of death with the scarlet lever and a cancerous affection of the bowels, from which her physician thought she could not possibly recover. I carried over with me a bottle of your Sarsaparilla, and with the consent of her physician, she commenced taking it that night. I remained with her three days, and left her rapidly improving. Her husband sent a boy home with me for more of the Sarsaparilla. I sent one dozen bottles, which I beliave will effect an entire cure. My father writes lieve will effect an entire cure. My father writes me to that effect, and wishes through me to procure an agency for selling your valuable medicine in that neighborhood. Respectfully, J. M. OWENS.

NEW YORK, Dec. 1, 1843.

Messrs. Sands-Gentlemen: Parental feelings induce us to make the following statement of facts in relation to the important cure of our little daughter, wholly effected by the use of Sands's Sarsaparilla. For nearly three years she was afflicted with a most inveterate cruption on the body, which at times was so bad, connected with internal disease, that we despaired of her life. The complaint commenced in the roots of the hair, and gradually spread until the whole head was eveloped, and then it attacked the ears, and ran down the neck, and continuing to increase, until it covered the most of the body. It commenced with a small pimple or pustule, from which water at first discharged; this produced great itching and burning; then matter or pus formed, the skin cracked and bled, and the pus discharged freely. The sufficings of the child were so great as almost wholly to prevent natural rest, and the odor from the discharges so offensive, as to make it difficult to pay that particular attention the nature of the case required. The the following statement of facts in relation to the ular attention the nature of the case required. The disease was called Scald Head and general Salt Rheum. We tried various remedies, with little ben-efit, and considered her case almost beyond the reach

of medicine; but from the known virtue of your Sarsaparilla, we were induced to give it a trial. Before the first bottle was all used, we perceived Sarsaparilla, we were induced to give.

Sarsaparilla, we were induced to give.

Before the first bottle was all used, we perceived an improvement in the appearance of the cruption; but the change was so rapid for the better, that we could scarcely give credence to the evidence of our own eyes. We continued its use for a few weeks, and the result is a perfect cure. To parents we would say—If you have children suffeting with any disease of the skin, use Sands's Sarsaparilla. With feelings of gratitude and respect, we are yours, &c. from the well known and highly popular factory of Messrs. Nunns & Clark, of New York; one is an elegant rosewood six and a half octave Piano Forte, grand action, of new style, a superior instrument;

ELIZABETHTOWN, N. J., Dec. 2, 1843. Mesers. Sands—Gentlemen: It is with heartfelt gratitude for your kindness to me that I make a pub-lic acknowledgment of the benefit I have received from your Sarsaparilla. I have been for many years afflicted with a cancer in the breast, and for four afflicted with a cancer in the breast, and for four years it was, as I thought, incurable; it spread very fast, so that it had nearly covered the whole breast, and for many weeks I was so reduced with the loss of blood and the pain of the wound, that I was unable to turn myself in bed, and my sufferings during the whole winter were more than I can tell. With the advice of my friends, I called two of the most the advice of my friends, I called two of the most cminent physicians of the place, who recommended your preparation of Sarsaparilla, knowing of nothing that would be as likely to help me; which advice I readily received, and before I had taken one bottle, I found a change in my feelings which induced me to take more, and when I had taken the third bottle, I was like another person both in health and strength. was like another person both in health and strength. I have taken your preparation since last March, and although the wound is not entirely healed, it is in a very favorable state, and I believe it will be the means, ultimately, of my entire cure; and that the afflicted may all find the relief which it alone can give, is the wish of their and your friend,

EUNICE WOODRUFF.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of agents gratis.
